REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Claims 1, 14 and 21 are patentable over the prior art patents and printed publications because of the specific multibeam scanning device and method for ablating a surface of a drum by laser engraving, wherein the device comprises a number of laser fiber exits disposed beside one another, an AOM array having a number of AOMs corresponding to the number of the laser fiber exits, the AOM array receiving the laser beams emerging from the laser fiber exits and dividing up the laser beams into at least two partial beams each being independently modulated and having points of incidence, an optical system for imaging the modulated laser beams at the surface of the drum and having an entry pupil in the vicinity of which the laser beams intersect, wherein the points of incidence of all the partial beams lie beside one another in a line on the surface of the drum and partially overlap adjacent points of incidence, and wherein the partial beams converge at least two planes. The combined limitations are not taught by the art of record alone or in combination.

Claims 2-8, 11-13, 16, 19-20, 22-24 are allowed because they are directly or indirectly dependent from claims 1 and 14 above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
